

Talking Points for Industry Calls

- I'm a constituent reaching out to ask the Senator to vote YES on the Marshall-Durbin Amendment to lower credit card fees.
- The passage of this bill is a major priority for my business.
- Swipe fees are my 2nd highest operating cost, an ever-increasing expense that only multiplies with inflation.
- In fact, the credit card companies take more of my money with every dollar of higher inflation and with every dollar of tariffs. Their huge fees hurt me and drive up costs for my customers.
- This bill is a market-based solution to the issue. It doesn't set the fees but is purely about competition and fostering an environment for market forces to work.
- **Can we count on the Senator's YES vote on the Marshall-Durbin Amendment?**
